

May 21, 2021

This document contains requirements for users of Anacostia Community Boathouse facilities during the on-going COVID-19 pandemic. The requirements detailed below were developed based on the District of Columbia's COVID-19 requirements, guidance from US Rowing, and the CDC. This update relies heavily on the CDC guidance on masks, dated May 13th, and resultant DC COVID-19 policy changes enacted on May 17th and May 21st, 2021.

HIGHLIGHTS:

- No Masks required for fully vaccinated individuals.
- Capacity limits removed.
- Traffic pattern for site and ramps removed.

DETAILS:

MASKS

1. Fully vaccinated individuals: Masks are no longer required at the Boathouse for people who are fully vaccinated against COVID-19. "Fully vaccinated" is defined as more than 14 days past the last COVID vaccination shot (2nd shot for Pfizer and Moderna, single shot for Johnson & Johnson).
2. Not-yet fully vaccinated individuals: Masks are required, both on land and in group boats, and appropriate social distancing is expected. "Not-yet fully vaccinated" is defined as having received no COVID-19 vaccine, or not yet at 14 days post final COVID shot (2nd shot for Pfizer and Moderna, single shot for Johnson & Johnson).

ORGANIZATIONS & GROUPS

3. ACBA expects each organization to operate in accordance with the COVID-19 guidance of its governing body, local, and national authorities. (for example: School, [US Rowing](#), [CDC](#), and [DC Gov.](#)) Given team vaccinations statuses and demographics, each organization should establish appropriate protocols for their clubs.
4. COVID-19 Vaccinations: All organizations will develop protocols for determining COVID-19 vaccination status of their members and periodically report high-level club vaccination status to ACBA (e.g. Club X is now at 50% fully vaccinated).

HEALTH STATUS

5. Self-Screening: Anyone coming to the Boathouse is required to monitor their temperature and health (there is a standalone temperature monitor in the erg Room). If their temperature is 100.4 degrees or greater, or they have other COVID-19 symptoms, do not come to the boathouse.

BOATHOUSE GROUNDS

6. Bathrooms and Locker Rooms are open. Showers remain closed.
7. On-Land Training (erging, stretching, etc): Fully vaccinated athletes may erg without masks and without social distancing. Not-yet fully vaccinated athletes must wear masks while erging and keep a six foot distance from others. Exception: Unvaccinated erg users may go maskless if they can maintain a 12 foot distance from others.
8. Put the “Community” in ACBA: In order to have a safe and productive rowing experience, member organizations and users are expected to work with one another to share the facility. Our users have a love of the water and of our sport, and should be patient and understanding with other users/programs when at ACBA. Current conditions are not ideal by any nature, and small sacrifices by all will allow for the most number of people to safely boat on our river. Concerns with other users/programs should be handled in a respectful manner.
